## LIBRARY STATEMENT

Within a few months Lyme was the only town of its size in the state that did not have a public library. This reproach is removed. The town now owns a library plant of vigorous growth. With the town appropriation of \$100 for a beginning, the trustees by means of entertainments and the gifts of outside friends have been able to create a property in up-to-date stacks, furniture, and books that is covered by an insurance policy of \$1000, and is worth at the lowest estimate \$1200. There are on the shelves 1300 volumes. 450 of these were gifts from the state and friends of the town. The rest were bought in the market and cover all departments of literature. The drawing of books for the five months the library has been in operation has amounted to 2482 volumes, or 118 per week. Regarding this rate as normal, the book circulation of the year will be 6116. This is a good showing. All parts of the town have been represented in the drawing of books. The library, according to its present regulations, is open Saturday afternoon and Wednesday evening. We may expect in time that the library will be endowed in part so as to be of little expense to the town. At this point of its development we look to the town for generous support, and are confident in view of the success of the enterprise thus far, that it will not be denied.

The library will be open to the public town meeting day, and we trust the citizens generally will take the occasion to inspect it.

For the Library Trustees,  
JOHN COWAN,  
Chairman

## SCHOOL BOARD

Twelve schools have been maintained during the year except in the winter term, when two of the smaller schools were consolidated.

Your committee has endeavored to select the best teachers available and we believe that we have a corps who have done hard and faithful work with results that are above the average of past years. We have felt the necessity of paying our teachers higher wages in order to retain the services of the best we could procure. We have endeavored to bring about conditions that would be favorable for the best work of both teachers and scholars and we think that the equipment of our schools is better than before. Some of our schoolhouses need considerable repairing before they will be adequate for the comfort and best welfare of our pupils.

We labor under the difficulty of having too many small schools, which, if they were consolidated to some extent, much better results would be seen. We would strenuously urge the parents to a greater interest and co-operation in the school work of Lyme

We fear much is being lost to our children and youth by the apparent indifference of those who should be most interested. To visit the schools, to cooperate with the teachers, to understand the needs, to look into real or fancied difficulties with the exercise of fair judgment is necessary on the part of parents.

To realize the possibilities of far greater school privileges in the present day is necessary on the part of those who support our schools, that our young people may enter the work of life better fitted to meet its demands.

Respectfully submitted,
